CONDITIONS OF SALE

Please read before ordering

This list includes prices on both plants and cuttings. Stock varies at times due to demand for certain varieties. You may list substitutes or we will send something that seems to be good or in line with the plant ordered. You may order anything as small or as large as you wish but if order is less than \$3.00 please add .25c extra above regular shipping prices. This does not include supplies. Stock state inspected.

ORDERS are sent Parcel Post, with special handling. For this and special handling, charges are \$1.25, if Special Delivery is desired add .25c more.

If shipping is not included we can send orders with the customer paying all shipping charges on delivery of order. For Air Delivery add .80c per pound. If more than needed we will refund over payment. If not enough will bill you for the extra cost on package. Shipping prices are quoted with supplies.

TERMS OF SALE cash must accompany all orders, for your protection do not send money through the mails. Orders will be held until frost damage is over, there is no protection for frozen plants.

LOCATION. See map, arrow points to McGrawsville. We are located 1/2 mile south and first house west. Phone EXport 5-7696.

BEGONIA

(R) Rhizomatous)

ABBIE—(R) Low growing hairy star; small green leaves marked in brown. Flowers small pink in winter. \$1.00.

ACETOSA—(R) heavy compact growing, rounded coppery olive bronze leaves; deep wine-red under-leaf and stems, covered with plushy white hairs. Flowers white. \$1.25.

ACIDA—(R) Low growing, leaves rounded bright green; netted and puckered all over, flowers white petals, with green tinted pods. \$1.00.

X ARGENTA GUTTATA—(Angel wing cane stem) Small dark green leaves, heavily spotted silver; red under-leaf, green stems, shrubby. Flowers creamy tinted pink. 75c.

X BAYERN (small cane stem) Long narrow leaves, silver spotted. Large pink flowers, almost an everbloomer. 75c.

X BEL-AIR—(R) Small low growing plant. Round red-bronze leaf; entire plant same color; flowers pinkish red. \$1.00.

BOWERI—(R) 'eyelash' suitable for terrarium or potted; leaves lettuce green with black markings along margin where long hairs stand erect, flowers pink. 75c.

BOW-ARRIOLA—(R) Miniature dwarf, lobed satiny black-green leaf with a pale sinus rayed like a star; deep red beneath with spotted stems. Flowers blush with her speckles. 75c.

X BOW-NIGRA—(R) Miniature five point star; dark bronze-green leaves with light sinus, veins pale green with green pattern markings along veins; whole leaf satiny, with short white hairs, underneath dark red with veins showing green. Stems red speckled and covered with coarse white hair. Flowers pink with red speckles. 75c.

- 'BRAEMAR'—(fibrous) Medium tall, branching stems grow from ground, dark red with white hairs. Leaves glossy dark olive-green, orbicular-pointed, undulate showing the shiny dark red underleaf. Flowers white bearded pink in clusters. \$1.00.
- X BROCADE—(R) Five lobed, one long lobe; edges crinkle showing the red underside of the leaf, color green, overlaid with silver. \$1.00.
- X CATALINA—(Lady Waterlow) (fibrous) Slender stems, grow from ground, wavy lance-shaped, smooth dark green above, red underleaf and petioles; pink flowers 75c.
- CHARM—(semperflorens) bright green leaves heavily mottled in yellow, low and bushy; single pink flowers. \$1.00.
- X CHIMBORAZO—(R) (creeping miniature) having peltate leaf with sharply pointed apex, slightly cupped, and top shiny green with a tiny black eye and very noticeably yellowish-green veins; averaging 3 inches; rosy pink stipules; blooms in late fall with tall clusters of deep pink flowers opening to clear white and retaining a pink edge. 75c.
- X CIRCUMLOBATA—(R) Leaves are rather thin for a rhizomatous plant, bright green, lobed to about half their depth. The lower lobe is generally larger than any of the others. The surface on the upper side is quite pebbly and rough looking. Red tinge on margin of leaf. Stems deep dull red covered with hairs. Flowers white. \$1.00.
- COMPTA—(Tewksbury Red) fibrous; low spreading plant with cupped, ovate leaf. Dark bronze-green suffused dark red; glossy red beneath, flowers dark crimson red. 75c.
- X CARRALINE LUCERNE — (Cane type) Stout stems, large green leaves spotted with silver; red flowers hang in large clusters almost everblooming. Best cane. 75c.
- CUBENSIS—(Holly leaf) fibrous; small crinkled, toothed, glossy green leaves with bronze tips; white flowers in winter. 75c.
- X DARK SHEEN—(R) semi-dwarf dark leaf with light markings, flowers pink. 75c.
- X DIANNA—Angelwing — Tall, erect; leaves ovate pointed, bright green heavily silver spotted, salmon-pink flowers hang in pendulous clusters. \$1.00.
- X DIGSWILLIANA—herbaceous. Stems erect or nearly so, green suffused with red; leaves long, tapering, toothed and dark rich green in color. Flowers rose scarlet. 75c.
- X DREGEI—(tuber) Bronze foliage, leaves small deeply serrate, red spot at sinus; faint purple veins above, red underneath. Flowers white. 75c.
- X ERYTHROPHYLLIA-FEASTI — (R) 'Beefsteak' Creeping rhizome; fleshy, medium round glossy dark green leaves, red beneath; stems hairy, flowers pink. 75c.
- X ERYTHROPHYLLIA HELIX — (R) Like above plant except leaves are double spiraled, more bronze, ruffled plain edge. Flowers pink. \$1.00.
- X ERYTHROPHYLLIA BUNCHI— (R) Lettuce leaf. This one has light green leaves, margins crested with curls, red hairy margins, pink flowers in winter. 75c.
- X EDITH M.—(R) Small deep vibrant green leaves margins marked with deep black and hairy flowers pinkish. 75c.
- ECHINOSEPALA ROSEA—Small cane leaves, deep bluish green, small and narrow the edges finely serrate stems slender, very dark, droop delicately, stems grow from ground. Flowers white at ends of branches. 75c.
- FERNANDO COSTAE — Fleshy, low heavy stemmed fibrous rooted. Hairy round plush green leaf, reddish underleaf, white flowers. \$1.00.
- FOLOSIA—(herbaceous) Fern Leaf—Tiny leaves, naturally procumbent; small pinkish flowers at ends of branches, good basket. \$1.00
- FOLOSIA-VAR. AMPLIFOLIA — Boat shaped leaves, large basket plant; flowers white from ends of branches. \$1.00.
- FUCHSIOIDES ROSEA—the pink variety of this plant. 75c.
- X FREIDA GRANT — Hairy fibrous. Olive green, wavy, lobed and pointed leaves; red underleaf. Small pink tinted flowers. \$1.00.
- X FUSCO-MACULATA—Medium creeping rhizomatous; large leaves roughly maple shaped, cut and notched, dark olive green above with netted chocolate markings, red beneath; flowers white. \$1.00.
- GREEN MEDORA—Small cane; dark green leaves, pink flowers. 75c.
- HEPATIC MACULATA—Low growing Rhizomatous; waxy round-ovate leaves, Nile-green with brown markings; red hairy petioles. \$1.00.
- HERLACIFOLIA STAR—Creeping rhizome, deep lobed, hairy bronze green with deep green veins; flowers pink. 75c.
- HERACIFOLIA NIGRICANS—(R) Dark leaved star, marked at veins with light green; flowers pink. 75c.
- X HERACLEICOTYLE (Mrs. Townsend) (R) Dark thick leathery maple shaped leaf compact grower, pink flowers. \$1.00
- HYDROCOTYLIFOLIA — (R) Pennywort; Miniature pond lily, has round thick leaves, dark almost black markings along the veins when mature; flowers pink in winter. \$1.00
- X HOTEL COLON—Large star-shaped lettuce green leaves; pink flowers. \$1.00.
- X ILLUSTRATA—Small compact grower, leaf round with one point, rough and cringly green, sunken markings along veins that make a regular network pattern; flowers pinkish white. 75c.
- X JOE HADEN — (R) Black-brown leaves that glisten like satin. Flowers pink. \$1.00.
- X JOE HADEN, JR.—(R) Rounded dark brown satiny leaves; yellow center and veins; flowers pink \$1.00.

- X JINNIE MAY** — Small angelwing; narrow dark green leaves, flowers pink in almost constant bloom. 75c.
- LEO C. SHIPPY**—(R) Leaves are seven lobed; emerald green with red veins. The red hairs underneath peep up to give the leaf a red edge; young leaves show yellow-green flushed red, flowers are pink in large clusters. \$1.00.
- MACULATA** — angel wing — Leaves green,, silver-spotted; flowers pink.
- MANICATA**—(R) Leaves large yellow-green with toothed margins, collar of stiff red hairs where leaf stalk joins leaf; flowers pink. 75c.
- X MANICATA AUREO MACULATA**—(R) Same as above — the leaves handsomely blotched yellow and sometimes pink, flowers pink \$1.00.
- MANICATA CRISPA** — (R) Same as above—large fleshy, waxy light green leaves with margins densely crested. \$1.00.
- X MAPHIL**—(R) Leaf chartreuse green outlined in deep brown markings surrounding the veins and margins. Best color when grown in good light. Flowers pink, small plant. \$1.00.
- MAY QUEEN**—Small cane lance shaped leaves, bright green silver spotted, drooping branches; flowers greenish white, in clusters 75c.
- MAZAE-VAR STITCH LEAF** — (R) Miniature light yellow-green leaves with black marked margins; white flowers with current red dots in summer and fall. 75c.
- X MEDORA**—Miniature trout leaf, The small cane miniature trout leaf, triangular lanced shape, glossy green spotted silver with wavy margins. Pink flowers. 75c.
- X MISSOURI**—(R) Star shaped leaf with chartreuse markings; flowers deep pink. \$1.00.
- X MRS. DREW**—(R) miniature, deep green sharply lobed leaves, silver overlay showing red veins hairy-red underleaf and border flowers pinkish. 75c.
- X MRS. FRED SCRIPPS**—Fibrous tall growing, yellowish-green lobed leaves; small white flowers \$1.00.
- NELUMBIFOLIA** — (R) Large peltate leaves underside hairy, makes a very fine foliage plant; can be used as any other specimen plant in a planter. Flowers small white to pink carried in an upright cluster \$1.00.
- X ODERATA ALBA**—Bushy fibrous, glossy yellow-green almost round leaves; abundant small white flowers and fragrant. 75c.
- X PAUL BRUANT**—Thick stem fibrous; at times has leaflets and plants along its stout stems; ornamental dark green serrate leaves, sometimes showing a reddish overtone; flowers in clusters, rose pink with green pods. \$1.00.
- PEARLI**—(R) Grape leaf—Small pebbled gray-green, dark margined leaves. Flowers white. 75c
- X PERLE LORRAINE**—Upright bushy fibrous ; ovate, waxy dark green, chocolate netted leaves. Flowers deep pink in winter. 75c.
- PINETORUM**—(R) Leaves heavy in texture with a brown tomentum on underside and stems; surface tomentum is white and more sparse; leaves eminate from center in a crisp frilled effect, margins carry a brown line. Flowers tiny, pink in large clusters. \$1.00.
- X PINK SHASTA**—Cane—Leaves ovate oblong, bright green with one prominent basil lobe; flowers large, soft pink. 75c.
- X PREUSSEN**—Small cane, bushy small pointed green leaves, flowers pink bloom most of year. 75c.
- PRINCEPS**—Low, fleshy fibrous plant with white hairy, green leaves; dark green at center and lighter green edge, underleaf downy, white hairy. Flowers erect clusters of white. \$1.00.
- X REICHENHEIMI**—(R) Leaves palmately lobed with reddish-brown areas along the veins. Flowers bright pink. \$1.00.
- X RICINIFOLIA** — (R) Large bronzy, slightly-lobed leaves with clusters of pink flowers in summer. \$1.00.
- X RICKY MINTER**—(R) Leaves deep green with pale green central veining; reddish beneath. Flowers rose pink. \$1.00.
- ROTUNDIFOLIA**—Low creeping rhizome—small round leaves in clusters; glossy light green; flowers pink. 75c.
- X RUBYAIYAT**—angelwing — Oblique glossy green leaves; flowers deep pink with pale green pods. Almost an everbloomer. \$1.00.
- X SACHSEN** — Fibrous; small low spreading angelwing, dark bronze-green leaves, red underleaf, has rose red flowers, almost everblooming. 75c.
- SCHMIDTIANA**—Fibrous; small hairy dull green leaves; dark red zone on the underside with a narrow green margin, flower stems dark red and covered with a short white hair; flowers freely, pale pink. 75c.
- X SCHULZIANA**—(R) Small creeper, smooth, thick seven lobed maple-shaped sharp lobed leaves; flowers pink. 75c.
- X SOCIETY** (Coriscea) Fibrous branched; leaves fleshy, cupped ovate dark glossy green; covered with brown tomentose beneath, brown, leaf-sheath; flowers white. 75c.
- X SHIPPYS GARLAND**—Basket; Scandent, long tendrils; freely branching; leaves broad-ovate pointed; glossy light green veined, notched and crinkled. Flowers cherry rose. \$1.00.
- SIR PERCY-REX**;—Leaves broad-ovate with wavy edges; brilliant silver, edged in dull green, underside reddish pink. \$1.00.
- X SKEEZAR**—(R) Low strong bushy growth; rippled silver splashed leaves, flowers greenish white, \$1.00.
- X SPECULATA**—(Grape Leaf) Coarsely hairy with shallow lobed leaves, has rough puckered surface; green with grayish blisters, dark edge, flowers white. 75c.

SUBACIDA-IRMSHER — (R) Yellow-green rough puckered leaves; red stems, white flowers. \$1.00.

X SUNDERBRUCHI — (R) Star leaf; lobes radiate from center, bright bronze-green, green bands along nerves, flowers pink. \$1.00.

SOUTHERLANDI-BULBOUS — basket. slender stems and branches drooping; green or purplish green, leaves lance shaped, toothed, red veined. Flowers yellow to orange. Dormant in winter 50c.

X TAFFETA—(R) Crumpled star-shape leaf, deep green splashed with silver, slightly hairy, flowers pinkish. \$1.00.

X TAMO—Fibrous, tall. Leaves dark greenish brown, dark red under-leaf. At maturity edges blanket stith. \$1.00.

TEMPILINI—Fibrous heavy stalked plant; leaves ovate, pointed, toothed margins; wavy and tinged with red, glossy green; almost covered with cream colored spots at times pinkish. Often has stems and leaves covered with leaflets and plants. Flowers pink in profusion. \$1.00.

X THURSTONI—Leaves glossy yellow-green, veins darker, underside red with red stems. Grows from ground making a bushy plant. Flowers pinkish. 75c.

ULMIFOLIA — Fibrous, grows erect, leaf resembles the elm leaf, bright green and hairystems grow from ground making a bushy plant. Flowers numerous, white 85c.

X VIAUDI — Fibrous, entire plant hairy, thick, ovate olive green cupped leaves; large white flowers. 75c.

WINTER JEWELL—Small, bushy habit, leaves ovate-pointed, toothed, rich deep green overlaid with jewell-like silver, sparsely hairy margins red, Flowers tiny pink clusters of bright pink is almost everblooming. \$1.00.

X ZEE BOWMAN—(R) Very compact small plant, leaves marked green and silver with long hairs on margins. Flowers white. 75c.

CHEIMANTHA—Dark Marina (Christmas Begonia) Smooth bright green lobed leaves; flowers deep pink produced continually. \$1.50

CAROLINAEFOLIA (R) Thick upright stem; leaves many lobed divided as the horse-chestnut tree; the fleshy, glossy green leaflets are toothed at margins, flowers pink, Grows very large. \$1.50.

X LUCENDRO—Cane—Heavily silver-spotted and unique in having the terminal point of the leaf entirely silver. Flowers red with white spots on the seed pods. \$1.00.

AFRICAN VIOLETS

P C AMERICAN BEAUTY—s. bi-color, plain foliage

P C BEAMING—Double bright pink, plain foliage. Blooms heavily.

P C BANNER—Double dark blue, plain foliage.

P C BLUE TANGO—Double medium blue, different, foliage.

P C BLACK CHERRY — Double wine, dark red-back foliage.

P C BRANDYWINE — Double wine, white margin, plain foliage.

P C BLUE BLAZE—Semi-double, deep blue with white edge, plain foliage.

C BLACK BEAUTY-S.—D e e p blue, fringed; foliage ruffled at margin.

P C BLUSHING BEAUTY-S.—B l u s h fringed flowers.

P C BUNNY HUG—Star—White touched with blue, narrow long leaves; small, lots of flowers.

P C BONNI FOI—Lots of round stars, single or tuft at center, very good.

P CERAMA-S.—Cerice shading to pink at margin, plain foliage.

P C CINDERILLA PINK—Double dark pink, holly foliage.

P CHARM SONG—Double med. blue on fine shaped plant.

C CLEAR SKIES-S—Med. blue with white eye and light edge.

P C CLUSTERS O' BLUE—Double med. blue, dark frilled foliage and flower.

P C CARLESS LOVE-S.—Rose-red star, long pointed foliage.

C COQUETTE—Double fringed lavender ruched foliage.

P CORAL BEAUTY—Double lavender bi plain foliage.

P C DREAM CASTLE—Double pink, open good girl foliage.

P C DAINTY DARLING—Double white-green, deep cut girl foliage.

P C DOUBLE RACY RED—Double dark red, small plant.

C D'AMOUR-S.—Lavender-red fringed, holly foliage.

C DOUBLE POM POM—Wine, white or green edge, rushed foliage.

C DOUBLE ORCHID PRINCE—Wine with black sheen, dark foliage.

C DURANGO-S.—Red, girl foliage.

P EMERALD SEA-S. Shaded two-tone, specie foliage.

P C EILEEN-S. Good pink on dark open girl foliage.

P C EMBER DREAM—Double raspberry red quilted dark foliage.

P C FIRST BEAU-S.—Light lacy lavender star, good foliage.

C FRINGED RASPBERRY — Huge double raspberry pink, wavy dark green foliage.

P C FAIR LADY—Double pink, fine dark modified foliage.

C FLEET DREAM—Double pink extra good. Plain foliage.

C FRINGED POM POM—Deep wine double, green edge, foliage dark and wavy.

P C FUCHSIA BRIDE — Semi-double fuchsia pink, open dark girl foliage.

P C GOSSIMER WING-S.—Frisly deep pink, bronze foliage.

P GOLD LACE WHITE-S. Large lower petals, upper smaller, green lace edge.

C GREEN YEARS—Double white, fine frilled dark foliage.

P GOLD BAND—Double frilled pink, shiny rippled leaves.

C GO PINK—Good pink on plain foliage.

C HUGONAUT—Double purple, white edge, long tapered foliage.

P C HOLLY SELECTIONS — Double frilled red-pink, dark wavy foliage.

C IRRISISTABLE—Double blue and white, plain foliage.

C JUNONIA-S.—Deep pink on bronze foliage.

P C KISS OF FIRE—Double, raspberry-pink on dark girl foliage, open growing.

P C KIMBERLY—Double blue, shaded edge, dark holly foliage.

C LINGO — Double lavender, plain foliage.

P C LITTLE JEWELL—Dark double fringed pink, holly foliage.

P LUCKY STREAK—Lavender splashed with color fringed, dark foliage—varies.

P C LUNA—Double white, open girl foliage.

C MISCHIEF—Deepest pink splattered with purple, semi double, varies.

P C MALINE—Pink and white fringed in green, wavy foliage.

C MALICOU-S.—White with blue edge ruffled foliage.

C MERRY WIDOW—Big double blue on deep cut foliage.

P C MELODY AIR—Double white, tint of pink, tailored foliage.

P C MATCHMATE—Double blue with white edge tailored foliage.

C NORAH—Double pink small well portioned girl plant.

P C ORCHEVA—Deep orchid with white margin, tailored foliage.

C PINK WITCH—Double pink splashed with purple.

P C PEACH CHIFFON — Peach bl double, plain foliage.

P PINK SNOWBALL — Double white pink eye, good.

P C PINK JILL-S.—Deep pink, dark plain foliage.

P C PEACHY PINK—Peach bi-color—best of its kind, heavy bloomer.

C PARROT FEATHER — Deep pink double, dark holly foliage.

C PURPLE FROST-S.—Blue bi-color light ruffled foliage.

P C PINK CLOUD—Double pink, plain foliage, one that is still good.

C RACY PEACH—Double peach flowers, held above foliage.

C RASPBERRY SHERBET — Double bluish splashed dark, plain foliage.

C RUFFLED ROSE DUST-S.—Ruffled pink wavy, rich green foliage.

C RED VELVET-S. — Deep red-wine, plain foliage.

C RENIGADE — Double wine-purple, plain foliage.

P C SMOKE RINGS—Biggest and best blue Geneva, big double white edged flowers.

P C SNOW DROP—Double snow white, very good.

P C SHAG—Double wine, edged white, bronze foliage.

C SNOWFALL—Double white, light foliage.

P C SNOW FLAKE-S.—Different petaled snow white, plain foliage.

P C STAR BLUE—Very large star, dark blue.

C SIR ECHO—Double very fine white etched in blue, plain foliage.

C SKY PINK — Double deep pink, fringed chartreuse edge.

YOARS GREENHOUSE—GALLEY FIVE

C SWANKY—Double blue and pink, varies, sometimes all blue.

C TENNESSEE DEBUTANTE-S.—Two toned red, semi girl good foliage.

P C THREE CHEERS—Double white-blue, very good, plain foliage.

P VERY GAY — Double pink, dark green rounded foliage.

P C VALOR-S. Good dark purple, plain foliage.

P C YOLANDIA—Double dark pink.

P C YOARS BEAUTY—Red bi color, plain foliage.

P—plant, C—cutting. All plants and cuttings 75c each.

EPISCIA

Orange-red Flowered Varieties

E. ACAJAU—Very broad fern pattern of silvery green on a dark mahogany background.

E. CHOCOLATE SOLDIER—Leaf very dark chocolate with narrow silver mid-rib.

E. COCCINEA — (E. Fulgida) Large brown leaves with silver green veins.

E. CUPREATA—Hairy copper colored leaves.

E. SILVER SHEEN—Leaves bright silver with darker margins.

E. VIRIDIFOLIA—Smooth nile green leaves, best bloomer.

E. EMERALD QUEEN—Hairy, emerald green leaves with narrow silver mid-rib and veins.

E. FROSTY—Frosted, downy, emerald green leaves with wide silver mid-rib.

E. HARLEQUIN—Smooth, shiny leaves, dark brown edges center greenish white.

E. SILVAN BEAUTY—Smooth silvery green leaves with medium brown margins.

E. KITTY—Soft furry leaves, bronze with lilac mid-rib.

E. SPLENDENS—Robust grower with broad silver markings on emerald background.

E. BROWN BEAUTY—A striking vibrant brown, brilliant flowers.

E. QUILTED BEAUTY—Deep green finely netted with nile.

E. LOVLINESS — Outstanding, dark green with a mosaic pattern in leaf of nile.

E. LILICINA — Dark bronze foliage, flowers blue.

E. LILICINA VAR. LILICINA — Dark brown with broad nile green figure in leaf. Blue.

E. LILICINA VIRIDIS—Leaf soft hairy nile green with silver veins, frilled lavender flowers.

E. LILICINA-PANAMA—Small narrow coppery green leaves, fringed light blue flower.

E. PUNCTATA—Narrow plain green leaves with white flower speckled with blue.

E. DIANTHAFLORA—Small dark green leaves, flowers white with deep frilled edge.

Plants ready on this after August 1.
All the above plants 75c each.

FERNS

- ASPLENIUM-NIDIS-AVIS (Birds Nest)
Glistening bright green, broad rippling fronds. \$1.50.
- ASPLENIUM—(Mother Fern) Graceful arching, lacy fronds on which grow tiny plantlets. \$1.50.
- NORWOOD—Fluffy Ruffles, fronds are full and ruffled. \$1.00.
- SMITHII — Small growing, extremely ruffled. \$1.00.
- BOSTON SPLENDENS — Changes to long, lacy fronds. \$1.00.
- WHITMANII—Old fashioned lace fern, fronds deeply cut. \$1.00.

HOYAS

- BELLA—Small plant does well as hanger. Flowers very fragrant.
- CARNOSA—Fleshy leaves, climbs. Flowers pinkish white, darker center.
- VARIEGATA — Fresh green foliage edged in cream, white, and pink. Above \$1.00 each.

CACTUS

- ACANTHORHIPSALIS MICRANTHA—
Epiphyllum-like plant, miniature yellow flowers followed by yellow to pink fruit. 75c.
- RHIPSALIS PARADOXA—'Jewel stem' Long hanging three sided branches twisting at random. Flowers white. 65c.
- RHIPSALIS MESEMBRYANTHEMOIDES—(Mistletoe Cactus) Much branched with very small joints. Small white flowers followed by white fruits. \$1.00.
- CHRISTMAS CACTUS — The dependable old favorite, blooms at Christmas \$1.00.
- RUBA ROSEA—Fine hybrid blooms
- HYBRIDS—A number of seedlings will from April through May. \$1.00. produce a variety of different plants. \$1.00.
- BOUGAINVILLEA-GLABRA— Magenta flowers. \$1.25.

MISCELLANEOUS

Yoars Greenhouse

Bunker Hill, Indiana

- CEROPEGIA WOODII—Rosary vine, heart shaped leaves. 50c.
- COLUMNEA ARGUTA—Waxy pointed leaves. Red bloom \$1.00.
- COLUMNEA TULAE VAR. FLAVA—Soft green leaves, clear tubular flowers, fruit round snow white. \$1.00.
- GESNERIA LINDENI — Beautifully veined velvety leaves, flowers blue and white 75c.
- STREPTOCARPUS SAXORUM — Whorls of small downy leaves, pale green, flowers pale lilac with white throat. \$1.00.
- GLOXINIA—Small plants mixed. 6 @ \$2.25.

SUPPLIES

- BRONX SPRAYER—Throws a fine penetrating mist. 1 quart size shipped \$3.85.
- HOZON—Place fertilizer in container, add water attach hose, feeds as you water. Shipped \$2.50.
- HUMIDITY GAUGE—\$1.25.
- ROOTONE—To promote root growth in cuttings. 35c and addressed envelope.
- PLASTIC MARKERS— Shipped, \$1.00 per hundred.
- SODIUM SELENATE—For control of mite. 50c and stamped envelope.
- V. C. 13—A long lasting Nemetode control. Successful when properly used. \$2.75.
- MALATHION—When used as directed will control most eating insects; for mealy bug; spray solution on foliage until wet then pour solution in soil until wet. Shipped 4 ozs. \$1.60.
- PLANT MARVEL—For general feeding, garden, lawn or potted plants. ½ lb. \$1.45.

SEEDS

Thanks for the fine orders this past year and my new list is ready. Please send stamped envelope for list.
